

## Supervisors Authorize 2000 Feet of Fence Along Dominguez Channel

Construction of approximately 2000 feet of protective chain link fencing along Dominguez channel at several locations in the City of Torrance was authorized this week by the Board of Supervisors.

On recommendation of the Flood Control District, the approval was granted providing the City of Torrance constructs suitable guard-rails or fencing along the street rights of way in order to provide effective closure of the channel.

**Motion Made**  
A motion which Supervisor Hahn had submitted recently calling for fencing of the channel for the protection of the children in the area led to the recommendation for the protective fencing.

"If this fencing saves the life of one child, it will certainly be worthwhile," Supervisor Hahn declared.

Areas scheduled for fencing under the action taken by the Board of Supervisors this week includes the following places: Redondo Beach Blvd., along both banks, approximately 200 feet downstream of the street.

**Crenshaw Fence**  
Crenshaw Blvd., along the northerly bank upstream of the street and along both banks

downstream of the street, approximately 200 feet each direction.

Arlington Ave., along the northerly bank, 200 feet, upstream of the street.

Gramercy Pl., along both banks up and downstream of the street, 200 feet.

Protective fencing as recommended will prevent direct access to the channel at street crossings, preventing children from entering the channel right of way at the most attractive places of entry.

Col. H. E. Hedger, chief engineer of the Flood Control District, stated that it is anticipated that remaining unfenced sections of the channel will be fenced by the land developers as the area is subdivided.

## Officers Seek Dog Which Bit Little Girl

A little girl bitten by a dog now is undergoing the painful Pasteur shots because the animal cannot be located.

Patricia Grace Kynbel, 5, daughter of Mr. and Mrs. Michael Kynbel, 5202 Arvada St., was bitten on the face by a small, golden brown medium-haired animal, similar to a cocker spaniel. She was running a temperature of 104 yesterday after taking her fifth shot.

Her mother said the animal had been seen in the neighborhood for several weeks before the incident, but has since disappeared. Anyone with knowledge of the dog is asked to call the Health Department at FA 8-3310, so that it can be determined whether the dog had rabies.

## Tartar Teen Talk

By OLLIE LESSIN

**Freedom! Temporary, but wonderful.** Most Tartars are spending their spring vacations basking in the sun of the beaches, trying not to think of the time when their books and pencils will be used again.

**The Ivy League Dance** last Friday night was really great. The Tartar Dance Band kept everyone (even the teachers) moving. Thank you, class of '60 for a wonderful dance.

**Gathering for a hay-ride** last Saturday night, members of the Senior Hi-Y and their dates were somewhat surprised to find themselves on the beach at Playa del Rey. After eating and freezing, the group gathered at Dick Greenlaw's home for a party.

Attending were John Emery and Claudia Smith; Tom Quaggin and Barbara Hester; Larry Denning and Loretta Robinson; Jim Smith and Mary

Yoshioka; Joe Rubco and Gail Richards; Ollie Lessin and Judy Arent; Ben Boegh and Becky Jones; Dick Greenlaw and Jackie Van Camp; Linda Williams and Eddie Shaw (who shot arrows at passing airplanes).

As school resumes, Tartars will find their remaining school days are filled to the brim with activities.

The next two months will contain the Backwards Dance, the Fine Arts Award Banquet, the Junior-Senior Prom; the All-Night Party, the Senior Trip to Catalina, and many other events to fill our remaining days in THS.
